

TODAY'S ENERGY BOOST

WITH PROFESSOR KILOWATT

Hello! Ready to start the day with a little energy booster? Get your brains around the ...

Factoid of the Day

Never fly a kite in an electrical storm-it's extremely dangerous. If lightning hits your kite, the electricity could travel down the string and into your body. Ouch! A jolt like that could even kill you.

Now get your brain running really hot and try my [Power Booster Quiz](#)

Look What's New! There's a lot of cool stuff happening in the Power Lab neighborhood.... check out the [Power Lab FabFun Guide](#) and find some fun activities for your family or school.
